

Single Line Keypad

The SLK-1 Single Line Keypad is an in-wall Decora® style single-gang keypad designed for individual zone control of any MCA-Series and C-Series Multizone Controllers.

The SLK-1 uses a five character LCD to display the current source, volume level and system status. Designed for basic zone control, its white backlit, soft-touch buttons allow for easy access to volume, power and source selection as well as a zone specific favorite and simple source transport option – play/pause, previous and next.

For added convenience, features an ALL OFF feature for the whole audio system as well as an IR receiver for control and IR repeating.

Features:

- 5 Character LCD shows source name, volume level and system status
- Single-gang Decora®-style keypad design exclusively for the MCA-Series and C-Series Multizone Controllers
- Conversion kits available in 6 color options; white, light almond, almond, bone, brown and black
- Responsive and easy to use buttons with visual feedback for simple control
